

Euphonium Fingering Chart

Bass clef, Bb treble clef, three-valve, and four-valve reference

ChordTools.site - free interactive chart online

Bb euphonium beginner register

Bass clef (concert)	Treble clef (written)	3 valves	4 valves
A#/Bb2	C4	Open	Open
B2	C#/Db4	1+2+3	2+4
C3	D4	1+3	4
C#/Db3	D#/Eb4	2+3	2+3
D3	E4	1+2	1+2
D#/Eb3	F4	1	1
E3	F#/Gb4	2	2
F3	G4	Open	Open
F#/Gb3	G#/Ab4	2+3	2+3
G3	A4	1+2	1+2
G#/Ab3	A#/Bb4	1	1
A3	B4	2	2
A#/Bb3	C5	Open	Open

Notation reminder

Bass-clef parts normally use concert pitch. Bb treble-clef parts sound a major ninth below written pitch.

The physical valve pattern stays the same when the written note label changes.

Valve 4 lowers a perfect fourth and commonly replaces the sharp 1+3 combination.

Compensating systems improve low-register tubing length; model-specific pedal notes may still differ.
